'[1]Example SCORM courses The Golf Examples are a set of sample SCORM packages that illustrate the technical principles of SCORM.

It defines communications between client side content and a host system (called 'the run-time environment'), which is commonly supported by a learning management system.. The standard uses XML, and it is based on the results of work done by AICC, IMS Global, IEEE, and Ariadne.. In simple terms, they constrain a learner to a fixed set of paths through the training material, permit the learner to 'bookmark' their progress when taking breaks, and assure the acceptability of test scores achieved by the learner.
